RE: Great Ape House

Dear Alderman Daly,

At our March 13th membership meeting we enjoyed a very informative presentation on the Lincoln Park Zoo's plans for their new Great Ape House. Many questions were answered as to why and how this new facility will be better for both apes and zoo visitors. The consensus of those at the presentation were in favor of the new facility and what it will mean for the Zoo and Chicago by enabling the zoo to maintain its lead in the scientific community in the study of Great Apes. LPAC supports the construction of this new facility.

Respectfully,

Vickie Matthews, President

Cc: Kelly McGrath, LPZ
