Dear Alderman Daley,

The Lincoln Park Advisory Council, at its meeting of April 13, 2011, has voted to approve the design for the improvement of Chicago's Green City Market. Mark Psilos and his landscape architects attended our meeting and presented their plans using drawings.

We appreciate your assistance in the financing of this project on a shared basis with Green City Market. LPAC members are looking forward to seeing this major improvement for park users.

Sincerely yours  
Sheli A. Lulkin, president
